August Shoot Notes

The August shoot fell on opening day of squirrel season. It was also very hot and humid. There were still almost 50 shooters. Our next shoot will be on September 19th and will be our 1st annual picnic shoot. Free food and I predict perfect weather. You can bring a side dish or dessert. Bring the family too. Speaking of weather predictions, I always go by persimmon seeds. When you cut one open it will either have a knife, fork, or spoon shape in it. A knife means a cold winter with cutting winds. A fork means a mild winter, where you can dig turnips any time. A spoon means lots of snow that you'll have to shovel.

The seed I cut open had a little bulldozer in it! I think that means we better look out.

10 foot of snow, well that's my prediction.

Dave told me to remind everyone that we are going to have a short meeting after the dinner on the 19th.

See you all there!

From Your Newsletter Crew:

As a reminder come early and stay late to help manage the targets. This can turn into long days for the folks that set the targets. They can always use your help.

Any items you wish to see in this newsletter get them to me and I will get them in.
